

TECHNICAL SKILLS

Languages: Python, Go, Java, SQL
Backend & Systems: FastAPI, RESTful APIs, gRPC
Infrastructure & DB: AWS (EC2), Docker, PostgreSQL, MongoDB, Linux (WSL)

TECHNICAL PROJECTS

TitanSwarm (Autonomous AI Co-Pilot) & TitanStore (Raft Database) Jan 2026 - Present
Personal Project · Python, Go, LangChain, FAISS

- Enabled efficient federal-grade data extraction by architecting an autonomous AI Co-Pilot in Python, resulting in the automated parsing of thousands of postings via **ServiceNow platform**-compatible scraping workflows.
- Ensured high-throughput data reliability by developing TitanStore in Go, implementing the Raft consensus protocol to guarantee state durability and fault tolerance for **complex technical challenges**.
- Delivered uniquely tailored, ATS-optimized outputs by building a zero-hallucination RAG engine using LangChain and FAISS, ensuring strict adherence to verified user data requirements.

Gridlock Casino (2D Arcade Engine) Feb 2026 - Present
Collaborative Project · Java, Swing, Maven, JUnit

- Optimized engine performance and maintainability by managing build automation and dependency resolution with Apache Maven, facilitating seamless **cross-functional teams** collaboration across 6 developers.
- Validated core engine logic and system stability by executing comprehensive JUnit testing, ensuring the 2D arcade engine met strict MVC architecture standards.

SFU Course Tracker (sfucourseplanner.me) Nov 2025 - Jan 2026
Personal Project · Python, Docker, AWS, FastAPI

- Reduced infrastructure costs and improved deployment reliability by migrating the platform to AWS (EC2) and implementing **Docker container orchestration**.
- Increased data throughput by 10x by engineering an Asyncio-based scraping pipeline with semaphore-based rate limiting, ensuring the system remains performant under heavy load.

EDUCATION

Bachelor of Science, Computing Science May 2025 - Present
Simon Fraser University

- CGPA: 3.74 / 4.33
- Relevant Coursework: Discrete Math (A+), Computer Systems(A), Data Structures & Programming (B+), Linear Algebra(A-).
- Langara College | Associate of Science, Computer Science Jan 2024 - Apr 2025

WORK EXPERIENCE

Server · Pho Goodness Restaurant Jan 2024 - Present
Burnaby, BC

- Streamlined operational efficiency by coordinating with diverse teams under high-pressure environments, ensuring seamless service for 100+ guests per shift.
- Demonstrated strong analytical skills and professional reliability by maintaining a 3.74 CGPA while managing demanding 20+ hour work weeks.
