

Zen Nguyen

(672) 673-2613 | ttn54@sfu.ca | linkedin.com/in/zennguyen1305 | github.com/ttn54

TECHNICAL SKILLS

Languages: Python, Go, SQL

Backend & Systems: FastAPI, RESTful APIs, gRPC, Raft Consensus Algorithm

Infrastructure & DB: AWS (EC2), Docker, PostgreSQL

TECHNICAL PROJECTS

TitanSwarm (Autonomous AI Co-Pilot) & TitanStore (Raft Database)

Jan 2026 - Present

Personal Project · Python, Go, LangChain, FAISS

- Enabled seamless scaling to 100+ users by developing TitanStore, a distributed system in Go that utilizes the Raft consensus algorithm and a custom Write-Ahead Log to ensure state durability.
- Optimized backend data flow by engineering a high-throughput gRPC-compatible TCP client API, facilitating real-time status synchronization between Python AI workers and the Go database cluster.

Gridlock Casino (2D Arcade Engine)

Feb 2026 - Present

Collaborative Project · Java, Swing, Maven, JUnit

- Synchronized a 6-developer team and enforced code quality by managing build automation and CI/CD pipelines via Apache Maven and comprehensive JUnit testing.
- Improved engine reliability by implementing a strict MVC architecture to manage concurrent user input and 60-FPS rendering cycles.

SFU Course Tracker (sfucourseplanner.me)

Nov 2025 - Jan 2026

Personal Project · Python, Docker, AWS, FastAPI

- Reduced infrastructure costs and improved deployment reliability by migrating the platform to AWS (EC2) using Docker container orchestration.
- Increased data throughput by 10x by engineering an asynchronous scraping pipeline with semaphore-based rate limiting and a normalized PostgreSQL schema.

EDUCATION

Bachelor of Science, Computing Science

May 2025 - Present

Simon Fraser University

- CGPA: 3.74 / 4.33
- Relevant Coursework: Discrete Math (A+), Computer Systems(A), Data Structures & Programming (B+), Linear Algebra(A-).
- Langara College | Associate of Science, Computer Science Jan 2024 - Apr 2025

WORK EXPERIENCE

Server · Pho Goodness Restaurant

Jan 2024 - Present

Burnaby, BC

- Streamlined high-volume operations by coordinating effectively with diverse teams under pressure to serve 100+ guests per shift.
- Maintained operational consistency and stakeholder satisfaction by managing complex workflows while balancing academic responsibilities.
